

Back Pack Vacuum Cleaners
World Leading Commercial Cleaning Equipment

Superpro 700 series

The Superpro 700 Series is the world leader in back pack vacuum cleaner design. Statistics show that vacuuming with a back pack is the most efficient way to clean. The Superpro 700 Series saves you time and money.

Superpro 700 series

The Back Pack Advantage

When it comes to the world's most efficient vacuum cleaner, Pacvac's Superpro 700 has the measure on all other vacuum cleaners. Independent testing by the International Sanitary Supply Association (ISSA – "The Official ISSA 540 Cleaning Times") tested how long it took the different types of vacuum cleaners to clean 1,000 square feet (93 square metres). The statistics from the test are as follows:

Carpet Surface Vacuumed with:	Square Metres	Minutes	Square M per Hr.
Back Pack Vacuum & 12" Carpet Tool	93	8.25	675
Tank Type/Canister Vacuum & 12" Carpet Tool	93	24.00	232
12" Upright Vacuum Cleaner	93	26.80	208

The results are clear. Back pack vacuum cleaners have a much higher efficiency level, saving you time and money.

Ergonomic Frame & Harness - a world standard ergonomic "body-moulded" frame and adjustable harness. Designed for increased comfort and anatomically correct posture.

Clear lid - easier to see when it's time to empty the bag. Offset inlet creates cyclonic effect ensuring maximum suction power.

Consumables - two cloth dust bags and five paper bags included for easy maintenance.

Hypercone™ HEPA filter - the only filter in the market that maintains suction as the dust bag fills. (excl. micron700).

Cord restraint - super strong cord restraint that prevents disconnections and provides operator protection.

Premium motors - ensuring maximum suction power and durability.

Accessory belt - with crevice tool, dusting brush and upholstery tool.

Plug in short lead - creates less service requirements and saves money. (excl. trans700 and battery700).

Australia's first choice

The Superpro 700 Series is efficient, durable and is the result of over 30 years of innovative design and development, making them the Australian cleaning industry's first choice in back pack vacuum cleaners. Their performance is also matched by their comfort. The Superpro 700 Series is fitted with a world standard ergonomically designed harness, HEPA rated Hypercone™ filtration and provides cleaners with an effortless and healthy cleaning experience.

Choose your back pack

From offices to hotels to aircraft, Pacvac has a range of six super productive back packs to suit any type of cleaning job in every environment.

Superpro 700

Superpro 700 is specifically designed for Commercial Premises, Offices, Schools, Resorts, Airports, Department Stores, Showrooms, Theatres, Surgeries and Households.

Superpro duo700

Specifically designed for Cafes, Factories, Hospitals, Laboratories, Nursing Homes where accidental suction of liquid is likely to occur.

Superpro wispa700

Specifically designed for environmentally green cleaning, fitted with an energy and volume control switch.

Superpro micron700

Micron 700 is specifically designed for Chemical Laboratories, High Tech Laboratories and Infection Control-Critical Hospital Wards.

Superpro trans700

Specifically wired for On-Board Power Systems found on various Aircraft.

Superpro battery700

Specifically designed for areas where a power cord is not required.
