

VHS120 All-In-One #B&C

As efficient as simple, the right combination for your application: one specific model built according to each main specific segments and equipped with the best accessory kit.

Your task? Just plug and play... and continue doing your job without any thought.

The #Building&Construction vacuum cleaner is the VHS120 H Class third party certified machine, which represents the state-of-art of industrial vacuum cleaner suitable for collecting hazardous materials.

The absolute HEPA14 filter, standard on this H Class variant, retains the finest dust, M-Class start filter with glued seams get the highest filtration efficiency, while the Longopac® system allows the easiest and safest discharge of the collected material, without coming into contact with the vacuumed hazardous dust.

The new anti-shock accessories kit, which this machine is equipped with, has been created specifically for the Building & Construction Sector, where there is the need to dissipate any static charges caused by the passage of dust.

It includes a conductive hose, a conductive cone, an antistatic round brush and a specific anti-shok nozzle with silicone lips, that can also be stored in the tool basket.
