

# INDUSTRIAL WET & DRY 802 WD

The 802WD industrial Wet & Dry vacuum cleaner is perfect for sucking up large quantities of liquids mixed with dust. 2 powerful single phase motors, steel container with large liquid storage capacity and easy machine handling make it perfect for all types of liquid waste. The handy drainage hose on the rear means its quick and easy to empty.

### SUCTION UNIT

The suction is provided by two by-pass motors, using carbon brushes, operated by independent switches and placed inside a sturdy steel casing, filled with soundproofing material.

### FILTRATION UNIT

A floating device stops the suction whenever the liquid in the container reaches the maximum level and prevents overflowing. A propylene filter for liquids is installed up-stream. This filter guarantees the efficient filtration of the vacuumed oil; an additional plastic foam filter prevents most of the liquid mist from getting to the motor.

### COLLECTION UNIT

The vacuum cleaner is mounted on a solid steel trolley, provided with a support for hoses when not used, and equipped with oil proof wheels and braking castors.

### Main Features:

- Compact and mobile
- Two powerful by pass motors with independent cooling
- PPL filter for protection of motors from liquids and foam
- D50 hand accessory kit included
- Discharge hose for liquids

### MODELS AND DATASHEET

MODELS	MISTRAL 802 WD
Power (V - Hz)	240 - 50
Power (kW)	2.3
Max Waterlift (mmH2O)	2500
Max Airflow (m3/h)	360
Suction Inlet (mm)	80
Noise Level (EN ISO 3744) - dB(A)	76
Filter Type	Bag
Surface - Diameter (cm2 - mm)	8,000 - 420
Material - Efficiency (IEC 60335-2-69)	Kit Wet + Kit Dry
Cleaning System	Manual
Discharge System	Discharge hose
Capacity (Litres)	80
Dimensions (cm)	53 x 59 x 106H
Weight (kg)	40

### Options available:

- Stainless steel collection tank
